ABOUT IDEE-CAMEROUN

Created in 2015 by a group of home and foreign-based Cameroonians, IDEE-CAMEROUN is a budding company. Despite its budding nature, IDEE-CAMEROUN thanks to its creators has a rich experience over a decade in supporting projects and activities of the Cameroonian Diaspora and foreign companies.

This experience spans diverse and varied areas ranging from investment in real estate, business creation, investment consulting, ICT etc.

The idea to create IDEE-CAMEROUN which literally means, Liaising Mediation with the Diaspora and Foreign Companies in Cameroon, stems from a simple observation:

More than ever before, Cameroonians wish to make investments in their country of origin while residing in their host countries. In most cases, an acquaintance or a close relation plays the role of middleman. However these people who have neither the resources nor the skills, nor the expertise to ensure the effective monitoring of these projects, eventually do not meet their objectives.

The Statistics show a failure rate of between 60% and 70% of this type of projects.

The solution: to appeal to professionals, formalize the relationship so that it is not only based on trust, but also on legal and legal bases established, allowing any recourse in case of problems.

Hence IDEE-CAMEROUN was created. We ensure a 100% success of your projects in Cameroon.

We act on your behalf as if you were in

Cameroon.

We avoid the hassle and

unnecessary trips to track your activities on site and we keep you regularly informed of their progress.

We play the role

of investment advisers, we assist you in the realization of your projects and perform quality assurance of projects you want to carry out in Cameroon.

Our ambition is to enable Cameroonians of the Diaspora and foreign companies to participate in the socioeconomic development of Cameroon by providing the necessary resources to enable them to invest with confidence.

Trust us, join the IDEE network and enjoy our wide ranges of services. Download our membership form.
